* The files are an unpacked archive of websites like anymoviepirates who released the clients A: On some websites, they have sub-directories and each sub-directory has data or files that are a cracked of that game. For example, a cracked version of a game might be at the sub-directory "cracked" and it has all the resources and files that are in a full release of the game. I found the cracked versions of Far Cry Primal, Max Payne and some others on different websites. Here are some of them. I'll suggest you visit the link to the game's site and try to check whether its provided officially or has some other stuff to do. Using sub-directories won't hurt, just saying.
