Simple Autorun Remover Activation Key

Simple Autorun Remover is a lightweight software application developed with a single goal in mind: to help users remove AutoRun files from the computer. The tool proves to be useful in case your computer is infected with AutoRun viruses, which spread pretty easily via flash drives, memory cards, or other external devices. Since this is a portable program, it is important to mention that it doesn't leave any traces in the Windows Registry. You can copy it on any USB flash drive or other devices, and take it with you

whenever you need to delete AutoRun items on the breeze, without having to go through installation steps. Simple Autorun Remover sports a clean and simplistic layout that gives you the possibility to set up the entire process with just a few clicks. The tool is able to scan the computer for AutoRun files and automatically delete them. What's more, you can check the log section for additional information about the entire process and possible errors. Since there aren't any configuration settings bundled in this tool, even less experienced users can master the entire process with minimum effort. During our testing we have noticed that Simple Autorun Remover carries out a task quickly, and no errors showed up throughout the entire process. As it would be expected from such a small utility, it remains light on system resources, so it doesn't hamper computer performance, nor interfere with other programs' functionality. To sum things up, Simple Autorun Remover offers a simple yet efficient software solution when it comes to helping you delete AutoRun items. Its intuitive layout and excellent scanning speed make it an ideal tool for rookies and professionals alike. Simple Autorun Remover user reviews: Download and install the Simple Autorun Remover. The software will open automatically after installation is finished. You can find "Remove AutoRun Files" in the drop-down menu of the main window. Press the button to start the tool. Step 3. Click the button next to the option "Clear all selected files" to remove all detected AutoRun items. If you wish to delete the detected AutoRun items by group, select one of the available groups and click the button next to "Clear all selected files". Step 5. Press the button next to "Show scan details" to see the detailed log of the performed action. If you find that the tool didn't delete all AutoRun items you can locate and select the problematic files by pressing the 1d6a3396d6
