### What's New In Total Copier?

Total Copier is a well-thought-out app, ideal for those who need to get things done efficiently. Along with the Multi-Clipboard feature, the app also offers a lot more advanced features, such as auto resume interrupted jobs, speed control with custom buffer and options to shut down/restart your computer after a job. It's worth noting that this tool is not meant for a novice, especially since it will require a fair bit of learning to get the hang of it. However, it will give you an excellent data management solution to improve your computing experience. Try Total Copier now! No registration required. Key Features: Advanced File Manager / Search-Assistant: Multi-Clipboard Auto Resume Jobs Speed Control Auto Restart Disable App - Shutdown / Restart Change Font Advanced Application: Search Assistant Status Bar Rename File / Dir Date/Time Stamp Multi-Clipboard Smart Free Space Checker Advanced Folder Collision Control When it comes to advanced file management, let's just agree that Windows Explorer is a bit under-powered. That's why there are countless third-party apps out there ready to step in when things get more complicated; popular examples include Total Commander, Explorer+, and XYplorer, just to name a few. User-friendly interface, easy installation, and novice-accessible features Total Copier is not your typical full-featured file manager but rather a piece of software that is the middle ground between one and the Windows Explorer, specialized in streamlining most file transfer operations. You can get this app up and run in a matter of seconds, without much effort on your behalf thanks to a standard installer. It's worth noting that the tool automatically integrates with both your computer's taskbar and the Windows shell. Learning to use this tool is hardly challenging, even for novices, but it may require a fair bit of getting used to, especially since it packs way more interesting features than you might be originally lead to believe. Simplify, improve, and speed up file management with the help of this versatile tool We'll start off by pointing out that Total Copier keeps a record of all your file management jobs, so you can effortlessly resume or, if need be, restart them later on. There's also a so-called Smart Free Space Checker and an Advanced File Collision Management System, both of which are aimed at making the file
