

I need to check whether the file contains microsoft office Word, file size less than 1MB. I have it in.txt format. i have tried this code but it fails to work, file size not mentioned is causing the problem as if the file size is greater than 1MB it doesnt consider it as word file #include #include using namespace std; int main() { int count=0; ifstream sample("./Sample\_file//", ios::in | ios::binary) ; if (!sample) { cout << 6d1f23a050
